

CHAPTER 3 – SUBMITTAL REQUIREMENTS FOR CONSTRUCTION PLANS

All construction plans and drainage reports, soil reports and pavement designs shall be prepared by, or under the direction of, a Professional Engineer registered in the State of Colorado, and shall be reviewed for the minimum requirements set forth herein.

The Engineer should be aware that whenever unusual or serious problems are anticipated in conjunction with a proposed construction, additional information and analysis beyond the minimum requirements herein will be required.

For further instruction on construction plan submittal please refer to the Town of Bennett's Applicant Submittal Guidelines.
